## PREDICTING THE FUTURE

### WHAT'S NEW IN APRIL

#### New High School Series: Predicting the Future

What an incredible Easter we had together! It's one of our favorites because of the life transformation it can spring in our own stories. So this this month we will talk about the change that happens in us when we encounter Christ and how we join in the "race set before us". During this series we will talk about how believers can implement a personal change process in their lives in partnership with the Holy Spirit. To grow in discipleship, we must identify the areas of our lives in which we need growth, be transformed by the renewing of our minds, discipline ourselves to implement specific changes, and stay connected to community. As we put ourselves in a place where we can learn and grow, God will be faithful to work his transformation in our lives.

#### New Middle School Series: Alpha

Middle school will be following the Alpha videos through April and May. This is also an amazing opportunity for you to reach out to people in your life who you have been praying for or who may need a safe space to ask questions about life, faith, and meaning. At Alpha, no question is off limits and everyone's perspective is just as important as the others in the room. Will you be bold enough to invite someone new?
